

THURSDAY, OCTOBER 14. 1742.

Yesterday arrived a Mail from Flanders.

Petersburgh, Sept. 29.

THE necessary Orders have been dispatch'd to Finland, for quartering the Troops which remain there, and for transporting such as are to return hither. We expect the Emperors in Six Weeks, or Two Months time at farthest. After the Return of the Court the new System will immediately be display'd, and this Empire appear as formidable under his Daughter, as ever it did in the Days of Peter the Great. The British Minister maintains his Credit, and even encreases it. We see him daily conferring with the Chancellor and the other Ministers, receiving and dispatching Couriers; but as to the Drift of his Negotiations we can only guess. Some say he is charged with accommodating Things between us and Sweden; others, with more Probability, in the managing a Scheme for Settling the Peace and Balance of Power in Europe by a perpetual Alliance.

Stockholm, Sept. 22. The English Minister here is more assiduous than ever, and it is generally imagin'd will succeed in his Negotiation. It is certain, that the Swedes are extremely irritated against the French, on account of their Delays in paying the promised Subsidies, and the Inefficacy of their Mediation in Muscovy; so that they seem, all Things considered, to have been the Authors of all the Misfortunes under which the Swedes now labour. The Popular Cry was hardly greater against Baron Gortz, than it is against Count Lewenhaupt and General Bodenbrock. Their Friends, however, pretend, that when they come to make their Defence, Things will appear in another Light. The Ministry, without doubt, exert their utmost Interest in their Favour; tho', considering their Defence, this is not a little mysterious.

Bodgora in Poland, Sept. 20. There are in our Neighbourhood a Nation, said to be descended from the Tartars, called the Goratz, of a very savage Disposition, but withal extremely brave, and inexpressibly hardy. With these People some Officers of the Queen of Hungary have been treating, and as they have offered them very good Terms, 7000 have engaged to march directly into Bohemia; where, it is not doubted, they will entertain the French very warmly in the Winter. The same Officers have contracted for a farther Supply of 5000 more in the Spring.

Naples, Sept. 25. Wednesday last being the Feast of St. Januarius, the Blood was expos'd as usual, and on its approaching the Head it became liquid in twenty Minutes, and continued so the whole Day, which gave inexpressible Joy to the Inhabitants of this City. Our Infanta is on the Recovery, and the Elephant which the Grand Signior presented to our King is safely arrived at Brindisi.

Dresden, Oct. 8. All the Passages are now open between this City and Prague, so that the Posts arrive as regularly almost as they did before the Siege. Vast Quantities of Provision are bought up in Silesia and the adjacent Countries, for the Use of that Garrison. Many of the Bohemian Nobility which were shut up in Prague, have made their Escape hither, and intend to serve as Volunteers in the Body of Auxiliary Troops which we are sending into that Kingdom.

Vienna, Oct. 6. Abundance of Pains is taken to establish vast Magazines on the Frontiers of Bohemia and Upper Austria, and the necessary Funds for recruiting our Armies, and remounting the Cavalry, against the next Campaign, are already settled; which sufficiently shew, that our Court is not to be amused by fallacious Proposals of Peace.

Brussels, Oct. 19. The Camp of the Hanoverian Troops extends from the Causeway of Louvain to Scharebeek. It is not certain when they will march to take the Field, for which they are very impatient. The Soldiers are in perfect Health, strong, well-made Men, and in high Spirits. They have a Train of 25 Pieces of heavy Artillery, and as many Field-Pieces. On Monday last the Duke of Aremberg and the Earl of Stair arrived here from the Hague, under the Discharge of all our Artillery. The next Day the last-mentioned Nobleman went to visit his Excellency the Count de Harrach, our Governor-General, who receiv'd him with extraordinary Marks of Respect, and the next Day return'd his Visit. On the 17th Marshal Neuperg gave a grand Entertainment to the Duke of Aremberg, the Earl of Stair, General Ligonier, and all the Field-Officers of the Hanoverian and

Hessian Troops, and they were Yesterday as magnificently treated by the Count de Harrach.

SCOTLAND.

Edinburgh, Oct. 7. Yesterday Afternoon Mr. Whitefield made a very large publick Collection from his Audience in the Hospital Park. He had for some Days past discours'd on the Excellency of the Cardinal Virtue Charity, more than on the Topic of Justification by Faith only. On this Occasion he presented to his Hearers our Blessed Redeemer looking on those who cast their Gifts into the Treasury, and the poor Widow casting in her two Mites, with such Address, Energy, and holy Avidity, that many of the Audience literally obeyed the Word, in not letting the one Hand know what the other did. He intimated, that this Collection was for God, as it was designed for the Comfort of his Family at Bethesda, where he said there were many Scots, and that several Scots People had been converted there;— and to'd, that the Audience needed not to grudge to give, in so far as they had had two plentiful Crops since the late Dearth.

We are told he collected on this Occasion, One hundred and Twenty-eight Pounds Ten Shillings and Seven Pence, Sterling.

COUNTRY NEWS.

Newcastle, Oct. 9. On Monday last came on the Election of Officers of this City for the ensuing Year, when the following Gentlemen were chosen, viz.

John Simpson, Esq; Mayor; William Cuthbert, Esq; Recorder; William Pearce, Esq; Sheriff; Mr. George Cuthbertson, Town Clerk; Mr. Jonathan Sorsbie, Clerk of the Chamber; William Jefferson and Henry Eden, Esqrs. Coroners; Mr. Robert Makepeace, Sword-bearer; and Mr. William Aynsley, Water-bailiff.

On Saturday last five Fishermen going in a Coble from Blythnooke to pilot some Ships into that Harbour, and the Wind on a sudden blowing hard at W. N. W. overset the Coble, and unfortunately three of them were drowned. The other two, with much Difficulty, saved themselves by keeping hold of the Coble, which some time time after drove into Blyth. And

On the same Evening the New Recovery of Scarborough, David Tristram Master, was by that Gale drove on the Rocks near Blyth; and altho' the Wind continued to blow hard all next Day, the Assistance they received enabled them to get her off with little Damage.

The Swift Sloop, Ralph Shotten Master, who sail'd from hence on Wednesday Morning last for London, with a valuable Cargo of Wool, Butter, &c. was on the same Afternoon, off Hattlepool, run down by a large Collier; who might, if the necessary Means had been used, not only have saved great Part of the Cargo, but have taken in the Men, who in their Boat were 21 Hours in the utmost Distress, and mult inevitably have perish'd, had they had not been taken up by the True Love, Capt. Storme, who brought them safe into this Harbour; and great Diligence is us'd to discover the Ship that was the unjustifiable Cause of the Loss of the said Sloop and Cargo.

In Ruddell Road in Wales are arrived the Smith Frigate, Ward, and the Griffin, Hubbard, both from Virginia; and a Schooner from New England, Name unknown.

On the 6th came in the Mathias, Baetyens, from Riga and Memell for Lisbon and Oporto; the Joseph, Welsh, from Oporto for Orders; and the Success, Redmond, from London for Cork and Monserrat; on the 8th came down from Spithead, the Amsterdam Packet, a Tender, and sail'd next Morning on a Cruise to the Westward; on the 9th came in the Trimmer, Rediard, from Shoreham for Lisbon. Wind W.

LONDON.

Private Letters by the last French Mail inform us, that the Contractors for furnishing Arms to the French Troops have been ordered to provide for the future Iron instead of Wood-handled Bayonets. They have likewise had Orders to provide a certain Number of Pikes, the Court resolving to have six Pikemen, with Pistols in their Girdles, in every Company of Foot. This Scheme is said to have come from the Chevalier Folard, and in all Probability it was put into his Head by the Advantages lately gain'd over the French Foot by the Austrian Hussars, against whom he might reasonably conceive these Pikemen might be of Service.

The Princes of Saxe-Hildburghausen and Birkenfeld and the Generals Prætorius and Lentulus, are very shortly expected at the Hague, in order to enter into the Service of the States; and it is believed that immediately upon their Arrival, such Dispositions will be made as shall be agreeable to the Courts of London and Vienna.

According to private Letters from Franckfort, the true Scheme of Marshal Broglie, who is Commander in Chief of the French Armies in Bohemia, is, to join Marshal Maillebois with the best Part of the Garison of Prague, and in consequence of that Junction, to obtain a reasonable Capitulation for the rest, after which he would retire with all possible Diligence, there being Reason to apprehend that some very considerable Alterations have happen'd lately in the System of Affairs in Germany.

Notwithstanding all the pompous Accounts that have been published, of the Successes of Marshal Seckendorff in Bavaria, it is certain, that General Berenclau in his Retreat from Munich to Passau, lost no more than 30 Wagons, and 50 or 60 Hussars and Pandours.

There are Letters from a certain Court in Germany which insinuate, that the Evacuation of Bavaria was a concerted thing, owing to the Interposition, or at least transacted under the Mediation of a certain great Prince, as it will shortly appear. In the meantime it is observ'd, that certain foreign Gazettes have varied their Style, particularly that of Franckfort, wherein Count Maurice of Saxony was lately said to be mortally wounded.

An Aga from the Regency of Tripoly, with four of his Domesticks, embark'd lately at Leghorn for this City.

The last Letters from Italy intimate, that the Duke de Montemar has lately receiv'd several Expresses from Spain; so that his being remov'd from his Command appears to have something in it very mysterious.

When the Post left Dresden, it was reported that a general Engagement had happen'd in Bohemia to the Disadvantage of the French; and the same is reported in several Letters from Nuremberg.

Private Letters from Munich contradict what is published in the Utrecht Gazette, of the blowing up a Monastery in that City; whereas the Austrians only demolished some Works, which they had rais'd about it for their own Security.

A Proclamation is issued out for summoning the Parliament to meet and sit for the Dispatch of Business, on Thursday the 25th of November next.

His Majesty has been pleas'd to appoint the Right Rev. Dr. Rundle, Lord Bishop of Derry, to be Archbishop of Dublin, in the room of his Grace Dr. John Hoadley, lately translated to the See of Ardmagh.

The Right Hon. the Earls of Pembroke, Albemarle, and Dunmore, are expected here from Flanders the latter End of next Week.

On Tuesday last Josiah Burchett, Esq; late Member of Parliament for Sandwich, resign'd his Office as Chief Secretary to the Lords Commissioners of the Admiralty, on account of his great Age; which Post he enjoyed upwards of 45 Years, with great Honour and Reputation.

He is succeeded in the said Office by Thomas Corbett, Esq; Under-Secretary, and Member of Parliament for Saltsb.

Thomas Hawes, Esq; one of the Chief Clerks in the Admiralty-Office, succeeds Mr. Corbett as Under-Secretary.

His Majesty has been pleas'd to appoint Col. Winyard, Colonel of a Regiment of Marines, to be Colonel of one of the vacant Regiments of Foot.

Yesterday a young Woman was committed to the Gatehouse Westminster, for the Murder of a new-born Child by smothering it in a Boghouse in Jeremy-Archer, St. James's.

Yesterday the Sessions began at the Old Baily, when Twenty-three Prisoners were try'd, of whom One was capitally convicted, viz.

Richard Arnold, for robbing Mr. Gates on the High-
way.
Eleven were cast for Transportation, and Eleven Ac-
quitted.

Dr. BATEMAN'S Original and ONLY TRUE Wholesale
and Retail WAREHOUSE at the Printing-Office, facing
the South Door of Bow-Church, the Lower End of
the Church-Yard, from Cheapside, LONDON.

THE Daily Success which has con-

stantly attended the Taking Dr. BATEMAN'S Pae-
torial Drops, in the several Distempers of Colds, Coughs,
Pains in the Breast, Limbs, and Joints; has gain'd them so
universal a Character, that few Families care to be without
them in their Houses.

Besides the Distempers above-
mentioned, there is no one Medicine, since the Discovery of the
Art of Physick, that will give a Speedier Relief and Ease in all
Rheumatick Pains, Gout, Stone, Gravel, Cholick, Fluxes, &c.

Innumerable Instances might be given of the Happy Effects
thereof, but we choose to refer to a Book, call'd, *Of Short*
Treatise of the Virtues of Dr. BATEMAN'S PECTORAL
Drops, given gratis, at the Warehouse above-said; where all
Shop-keepers, &c. in any City, Town, or Village, where
these Drops are not already Sold, may be supplied, with good
Allowance to sell again, by Directing or Sending to the Pa-
TENTEE,

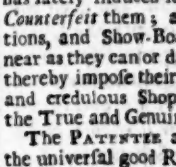

BENJAMIN OKELL,

WM. and CLIVER DICEY.

The Surprising Encouragement, which by constant
Success, these most Valuable Drops have, for upwards of Twenty
Years, met with, not only in Great Britain and Ireland, but
in all Parts of the West-Indies, and other Foreign Countries;
has lately induced several mean and mercenary Pretenders to
Counterfeit them; and by imitating our Seal, Bill of Direc-
tions, and Show-Boards, with our Method of Advertising, as
near as they can or dare to do, without making them the same;
thereby impose their dangerous Compositions upon the unwary
and credulous Shop-keepers both in Town and Country, for
the True and Genuine Sort.

The PATENTEE and Company therefore, in Gratitude for
the universal good Reception they have so long met with, and
for the Safety of those who for the future may be desirous of
using the same, think themselves absolutely obliged to give
this necessary Caution;

Which they earnestly request may be observed,

THAT the Bottle they Buy is not only
Sealed with the Boar's Head, but has also
these Words round it, BY THE KING'S
PATENT, as in the Margin; and also
that the Names of the PATENTEE, Ben-
Okell, William and Cliver Dicey, be in the
Bill of Directions given with each Bottle;
without which you may be assur'd it is a
notorious Counterfeit, and may be of the
most dangerous Consequence.

N. B. That these Drops are also Sold Retail (as well as
Wholesale) at the Warehouse aforesaid, at One Shilling the
Bottle, containing three Doses.

Concerning Gleet and Seminal Weaknesses
of all Kinds.

ALL judicious Physicians and Surgeons

allow, that nothing is more difficult to cure than
Stubborn Gleet and Seminal Weaknesses, whether occa-
sion'd by too severe purging for Venereal Injuries, violent
Strains, Pollutio sui, or any other Cause whatever; and
that they are dangerous in their Consequences, as well as
difficult to cure, is as certain, since they exceedingly weaken
the Generative Faculties, infeeble the whole Nervous System,
often bring on Hectic Heats, a Tabes Dorsalis, or Consump-
tion of the Back, or an Atrophy or Nervous Consumption,
which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled
with Old or Stubborn Gleet, Seminal Effusions, Involun-
tary Emissions, excessive Nocturnal Pollutions, or any Weak-
ness of the Kidneys, Ureters, or Bladder, the Diabetsis, or
Incontinency of Urine, or Difficulty of holding their Water,
would doubtless be glad to meet with a certain, safe, and
speedy Cure, which they most assuredly may, by taking
only a small Quantity of a transcendent BALSAMICK RE-
STRICTIVE ELECTUARY, now published for a general Good,
after having for many Years been experienc'd never once to
fail perfectly curing the most Stubborn Gleet known, in
a few Days, without Difficulty or Trouble; as also all
other Weaknesses of the Back, Reins, Seminal Vessels, and
Urinary Passages, which almost instantly cures, bringing
to rights and restoring all those Parts and Passages to their
natural Tone and pristine Vigour, in a very extraordinary
Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY,
is neither disagreeable to take, nor occasions the least Disor-
der, but is a wonderful Restorative in all Weakness and Decay
of Constitution of any Kind, and particularly strengthens the
Back, Reins, Seminal and Urinary Vessels to an immense De-
gree, inasmuch that in any Debility of them, one Dose of it
does more than ten of any other Remedy yet found out; and
all Persons fatigu'd with Gleet or Seminal Weaknesses of any
Sort, or Weaknesses of the Urinary Vessels, who take it, will
in three Days time find it so very effectual, that they will be
most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe,
speedy and perfect Cure of such difficult Maladies, as Gleet
and Seminal Weaknesses are, as this Great Remedy truly and
directly will, even after all other Means and Medicines have
been tried in vain; too much cannot be said in it, and this
All who ever took it for any of the above-mention'd Purposes,
have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy,
one Pot alone being sufficient in most Cases to accomplish
a Cure, worth ten times as much, and by the Author's
special Appointment, is to be had only at Mr. Radford's
Toy-shop, at the Rose and Crown against St. Clement's
Church-Yard in the Strand, ready sealed up, with a Book of
Instructions, which whosoever carefully reads will perfectly
know, when the Gleet or Weakness he is afflicted with
succeeds a Venereal Injury, whether all the Malignity of
the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.
